

Parent Portal Directions

The online “Parent Portal” feature of our gradebooks allow parents/guardians to access their student’s performance, grades, assignment scores, attendance, and behavior.

Several schools, including most high schools and Marcy, piloted this program last spring. Things seem to be up and running, so here are the directions for signing on:

1. The link for the new Parent Portal is <http://sisportal.mpls.k12.mn.us/>.
2. Fill in your own family information and your student’s information.
3. When the computer asks “**Are you a student?**” answer “**No.**”
4. Once you have registered, you will log in using the user ID and the password that you created.

Note: You will need to know your student’s school ID number to access the system. You may also have trouble if the way you type in the student’s name is different than the way the name appears on official school documents. Check spaces and hyphenation if you can’t log in.

If you need further assistance, please contact Eve Parker, our middle school coordinator, at (612) 668-1020.
